Existing-operation repair

Lowest initial irreversibility; diagnose bottleneck before new assets. Release evidence: Measured eligible volumes, service cost, actual headroom. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Contracted trade

Limited physical commitment, but spread/inventory/credit may be large. Release evidence: Bankable lot, reset clauses, collateral and actual funding. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Distribution/technical service

Local route learning; marketing can fail when supply/credit binds. Release evidence: Paid repeat, usable output, route cash and causal test. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Toll/contract processing

Avoid full ownership; quality/availability/control dependence. Release evidence: Partner contract, yield, transfer price and outage remedies. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Joint venture / partnership

Shared capital/control, governance and exit dependence. Release evidence: Partner diligence, minority rights, funding and consolidation. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Brownfield expansion

Uses existing capability; may enlarge common basin/route risk. Release evidence: Verified demand, bottleneck, capex quote and site permissions. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Greenfield owned asset

Largest long-lived commitment and replacement exposure. Release evidence: Full asset/customer/rights/tax/FX model and downside liquidity. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Acquisition

Rapid footprint with integration/liability and price risk. Release evidence: Due diligence, purchase price, liabilities and integration cash. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Licensing/franchise

Low owned assets but weaker implementation/brand control. Release evidence: IP, partner enforcement, quality and net fee cash. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.

Wait / abandon / exit

Preserve cash or stop unsupported commitments. Release evidence: Cost of delay, existing obligations, exit charges and learning value. Actual capex, lead time, tax, control agreements and funding remain unquoted; no generic figure is assigned to a country.
