Version 1.1.0 | Audited 8 October 2026 | Independent public-data research

CO_AR / Olam Agri Annual Report 2025

Url: <https://www.olamagri.com/content/dam/olam-agri/assets/webp/au/ar/annual-report-pdf/2025/annual-report-2025.pdf>

Pinpoint: Printed pp. 3, 10–11; CFO overview and performance charts

Accessed: 2026-10-07

Classification: Company disclosure

Limitation: USD Agri figures. Handled and sales tonnage have different definitions.

Issuing organisation: Olam Agri / Olam Group, company issuer

Publication date: 2026; exact publication day not independently verified

Data period: 2025 fiscal year

Revision: Latest downloaded vintage; original retrieval checksum identifies it

Canonical url: <https://www.olamagri.com/content/dam/olam-agri/assets/webp/au/ar/annual-report-pdf/2025/annual-report-2025.pdf>

Direct url: <https://www.olamagri.com/content/dam/olam-agri/assets/webp/au/ar/annual-report-pdf/2025/annual-report-2025.pdf>

Relevant perimeter: Olam Agri, FY2025 USD reporting perimeter

Units currency base: Revenue/EBIT: current reporting USD million; sales volume: thousand metric tonnes. FY2024/2025 same Agri perimeter; no FX conversion.

Exchange rate convention: No conversion unless a calculation explicitly provides it

Printed page: 10–11 for company finance; 3 for scope

Pdf file page: 12–13 for finance; printed 3 maps to file 5

Series id: None

Api query: None

Dimension filters: Document sections at pinpoint

Retrieval timestamp: 2026-10-07T18:48:37.819300+00:00

Sha256: None

Measurement status: Direct disclosure or original methodology; scope limitations apply

Conflict reconciliation: No conflicting series substituted; definitions/vintage retained. Unknowns stay unknown.

Availability: Public primary evidence; retrieval outcome in manifest. Blocked full downloads are not described as inspected.

Licensing access: Cite/link the issuing source; permitted statistical extracts retained with checksum where available. No claim of unrestricted report redistribution.

Definition: USD Agri figures. Handled and sales tonnage have different definitions.

Slide ids: company;corridor;example-01;sources-0

Definition: This indicator provides values for gross domestic product (GDP) per person expressed in constant international dollars, converted by purchasing power parities (PPPs). PPPs account for the different price levels across countries and thus PPP-based comparisons of economic output are more appropriate for comparing the output of economies and the average material well-being of their inhabitants than exchange-rate based comparisons.

Gross domestic product is the total income earned through the prod

Definition: Cereal yield, measured as kilograms per hectare of harvested land, includes wheat, rice, maize, barley, oats, rye, millet, sorghum, buckwheat, and mixed grains. Production data on cereals relate to crops harvested for dry grain only. Cereal crops harvested for hay or harvested green for food, feed, or silage and those used for grazing are excluded. The FAO allocates production data to the calendar year in which the bulk of the harvest took place. Most of a crop harvested near the end of a year w

Definition: The level of water stress: freshwater withdrawal as a proportion of available freshwater resources is the ratio between total freshwater withdrawn by all major sectors and total renewable freshwater resources, after taking into account environmental water requirements. Main sectors, as defined by ISIC standards, include agriculture; forestry and fishing; manufacturing; electricity industry; and services. This indicator is also known as water withdrawal intensity.

Definition: Gini index measures the extent to which the distribution of income (or, in some cases, consumption expenditure) among individuals or households within an economy deviates from a perfectly equal distribution. A Lorenz curve plots the cumulative percentages of total income received against the cumulative number of recipients, starting with the poorest individual or household. The Gini index measures the area between the Lorenz curve and a hypothetical line of absolute equality, expressed as a perc

Underlying issuer: World Bank, Poverty and Inequality Platform. Data are based on primary household survey data obtained from government statistical agencies and World Bank country departments. Data for high-income economies are mostly from the Luxembourg Income Study database. Definition: Lending rate is the bank rate that usually meets the short- and medium-term financing needs of the private sector. This rate is normally differentiated according to creditworthiness of borrowers and objectives of financing. The terms and conditions attached to these rates differ by country, however, limiting their comparability.

Definition: An interest rate is the amount charged, expressed as a percentage of the principal over a period of time, by the owners of certain kinds of financial assets for putting the financial assets at the disposal of another institutional unit. The real interest rate is the lending interest rate adjusted for inflation as measured by the GDP deflator. The terms and conditions attached to lending rates differ by country, however, limiting their comparability. This indicator is expressed as a percentage (a

Definition: Debt is the entire stock of direct government fixed-term contractual obligations to others outstanding on a particular date. It includes domestic and foreign liabilities such as currency and money deposits, securities other than shares, and loans. It is the gross amount of government liabilities reduced by the amount of equity and financial derivatives held by the government. Because debt is a stock rather than a flow, it is measured as of a given date, usually the last day of the fiscal year. C

WB_agriculture_employment / World Bank WDI: Employment in agriculture (% of total employment) (modeled ILO estimate)

Url: https://api.worldbank.org/v2/country/all/indicator/SL.AGR.EMPL.ZS?date=2000:2025&format=json&per_page=20000

Pinpoint: Series SL.AGR.EMPL.ZS; country ISO3/year records; latest non-missing observation; data vintage 2026-07-13

Accessed: 2026-10-08

Classification: Official statistics

Limitation: Country averages and dated observations do not establish Olam customers, effective access, costs or returns. No imputation.

Issuing organisation: World Bank; WDI compiler, underlying national/institutional sources in indicator metadata

Publication date: Undated page / exact publication date not verified

Data period: 2000–2025; available years differ

Revision: Latest downloaded vintage; original retrieval checksum identifies it

Canonical url: <https://data.worldbank.org/indicator/SL.AGR.EMPL.ZS>

Direct url: https://api.worldbank.org/v2/country/all/indicator/SL.AGR.EMPL.ZS?date=2000:2025&format=json&per_page=20000

Relevant perimeter: Country ISO3/year; 195-country universe, non-country aggregates excluded

Units currency base: Employment in agriculture (% of total employment) (modeled ILO estimate)

Exchange rate convention: No conversion unless a calculation explicitly provides it

Printed page: Not applicable for web/API; PDF pinpoint retained, further page attribution not verified

Pdf file page: Not applicable / not independently verified

Series id: SL.AGR.EMPL.ZS

Api query: https://api.worldbank.org/v2/country/all/indicator/SL.AGR.EMPL.ZS?date=2000:2025&format=json&per_page=20000

Dimension filters: ISO3 in membership-verification.csv; year 2000–2025; latest non-null, no imputation

Retrieval timestamp: 2026-10-08T02:15:08.622882+00:00

Measurement status: Proxy observation

Conflict reconciliation: No conflicting series substituted; definitions/vintage retained. Unknowns stay unknown.

Availability: Public primary evidence; retrieval outcome in manifest. Blocked full downloads are not described as inspected.

Licensing access: Cite/link the issuing source; permitted statistical extracts retained with checksum where available. No claim of unrestricted report redistribution.

Definition: Employment is defined as persons of working age who were engaged in any activity to produce goods or provide services for pay or profit, whether at work during the reference period or not at work due to temporary absence from a job, or to working-time arrangement. The agriculture sector consists of activities in agriculture, hunting, forestry and fishing, in accordance with division 1 (ISIC 2) or categories A-B (ISIC 3) or category A (ISIC 4).

Definition: Annual freshwater withdrawals refer to total water withdrawals, not counting evaporation losses from storage basins. Withdrawals also include water from desalination plants in countries where they are a significant source. Withdrawals can exceed 100 percent of total renewable resources where extraction from nonrenewable aquifers or desalination plants is considerable or where there is significant water reuse. Withdrawals for agriculture and industry are total withdrawals for irrigation and lives
